

# REIZEN MET DE TREIN

MEDIA KIT

## ABOUT US

To us, travel by train is one of the most beautiful ways to travel and we would like to show you why. First of all it is an environmentally friendly way to discover the world. Second of all there is no rush, a spectacular view and getting to know the local culture. Slow travel is a way of traveling in which the journey counts more than the destination. On our website, [www.reizen-met-de-trein.nl](http://www.reizen-met-de-trein.nl), we want to inspire you to take the train more often to travel around. We try to convince you by writing fascinating reports and reviews, show stunning pictures and take interesting interviews. Besides that, we also teach some history about the designated railways and train stations we travel upon. So discover the world and travel with us!
